

Community update

Menai Indoor Sports Centre

We would like to provide an update on progress of the Menai Indoor Sports Centre Roof Replacement and Ventilation Upgrade Project.

The project is currently delayed due to a number of issues that have presented during the course of the upgrade and design work.

The existing building structure was identified during design as being at capacity. This impacts the proposed ventilation system as the buildings structural capacity can not support the additional load. To address this, we are proposing structural changes to strengthen the building to support the ventilation equipment. A Development Application is required to be determined prior to work starting on site.

Timing

- A Development Application has been submitted and the public notification period is complete. Final assessment is expected late 2024 to early 2025
- Work is expected to start at Menai Indoor Sports Centre early 2025 subject to consultation with user groups

More information

To find out more about the project please visit our project website at sutherlandshire.nsw.gov.au/keyprojects

We will keep you updated as the work progresses and thank you for your patience.
