

# Alcheringa Reserve, Miranda

## Dog Off-Leash Park and Upgrade

Council is combining the planned off-leash dog park with a car park upgrade and renewal of the playground at Alcheringa Reserve.

This aims to improve recreational enjoyment of the space for a variety of community interest groups.

- The dog park features will include seating, a shelter, pathway and 1.5-metre-high fence.
- The playground will include new play equipment, soft fall with a sandstone edge and seating.
- The carpark will include improved accessibility and drainage, low-impact lighting and removal of the power pole in its centre.
- Parking access will be maintained for Scout Hall users, subject to traffic controls. The park and playground will be closed during construction.

**Construction timing:** Work is expected to start by May 2025 and be completed by late 2025.

**Work hours:** Monday to Friday 7am to 6pm and occasional Saturday work between 8am and 1pm.
