TURNING SUNLIGHT INTO SAVINGS

Heathcote High School is the latest school to enjoy the 'Solar My School' program. The program helps NSW schools make the switch to renewable energy, with a new solar power system expected to slash energy bills.

We provided financial support for the school's inclusion in the program which has seen 122 schools transition to the use of solar energy. Heathcote High School will save over \$12,000 per annum, which the school can redirect to improving the experience for students. Expected annual outcomes are:

- a 25% reduction in energy bills
- enough power to run 451 computers or 16 homes
- reduction of carbon emissions by 80 tonnes (equal to taking 28 cars off the road).

LOGOS / ΛΟΓΟΤΥΠΑ

UNTIL SUNDAY 17 NOVEMBER

Logos / Λογότυπα is an exhibition exploring Greek identity and culture in Australian art.

Crossing six decades from the 1960s to the 2020s, *Logos / Λογότυπα* embraces Hellenism and the idea of permanency as an illusion in Australian art and culture. For many of the exhibiting artists this is the first time their works have been positioned in a Greek context.

Curated by Kon Gouriotis OAM, the exhibition is presented in collaboration with Hazelhurst Art Centre's neighbour, Fr. Constantine Varipatis of Saint Stylianos Greek Orthodox Parish.

COMMUNITY MICRO-FORESTS

Did you know we have three Community Micro-Forests across Sutherland Shire?

They are planted with the help of our community, connecting people with nature and promoting environmental stewardship.

A micro-forest is where tall growing canopy trees are planted close together, forcing them to compete, grow faster and denser, creating patches of vegetation that mimic mature bushland.

They offer habitat for fungi, microorganisms, insects, birds and animals, and provide shade, store carbon and reduce the urban heat island effect.

Find out more about our micro-forests sutherlandshire.nsw.gov.au/micro-forests
